YOUR STYLE OF LIVING

PROUD TO BE LOCALLY OWNED AND OPERATED.

"Fowler Homes Queenstown is a family-owned and operated group home-building company. We are part of a nationwide building franchise that has been in operation since 1984. Our expert team offers a range of build services, including design and build, home-and-income packages, turnkey homes, investment properties, knockdown-and-rebuild, and architectural design services.

We lead a team of trusted local tradespeople to deliver quality service and workmanship. We value our people, and we are proud to support many local charities, sporting groups, and I Am Hope through our second Hope Home charity build project."

YOUR STYLE OF LIVING

Hanley's Farm has established itself as one of Queenstown's sought-after residential developments.

This thoughtfully planned community is highly regarded by both growing families and astute investors due to its strong capital growth potential, modern infrastructure, and exceptional lifestyle appeal. Strategically positioned to maximize sun exposure in an alpine climate, the neighborhood offers a pristine, safe, and family-oriented environment that consistently attracts high-quality, long-term tenants.

For families, the neighborhood features expansive green spaces, two playgrounds, a pump track/skate bowl, and recreational trails right on its doorstep. A major drawcard is the local primary school, Te Kura Whakatipu o Kawarau, which allows children to safely walk or bike to school within the community. Coupled with its close proximity to Jack's Point, and the Frankton shopping hubs, high school, day care and Queenstown International Airport, Hanley's Farm provides the seamless daily logistics that modern families require.

For investors, Hanley's Farm represents a robust addition to any portfolio. Queenstown's rental market remains in high demand, and this subdivision specifically targets the region's core demographic of working professionals and families seeking long-term stability. The high standard of surrounding buildings, combined with nearby commercial developments and Remakables Ski Field, ensures enduring rental yields and strong future resale value.

Whether you are looking to secure a premium family home or a high-performing asset in New Zealand's most resilient property market, Hanley's Farm delivers on every front.
